

Look & See: A Portrait of Wendell Berry
May 7, 2019, 6:30PM

LOOK & SEE is a cinematic portrait of the changing landscapes and shifting values of rural America in the era of industrial agriculture, as seen through the mind's eye of Wendell Berry.

Wendell Berry, one of America's most significant living writers, captures the rolling hills and close-knit community of Henry County, Kentucky – where Berry as lived and farmed since the mid-1960's. Through Wendell's eyes, we see both the changing landscapes of rural America in the era of industrial agriculture and the redemptive beauty in taking the unworn path.
